HearForever: Best Practices in Hearing Conservation

Noise-induced hearing loss is the world's most pervasive occupational injury. But with proper education, motivation, and protection, it's also 100% preventable!

Join noted Hearing Conservationist Alex Berti for a **FREE SEMINAR**. Mr. Berti will share practical information on noise-induced hearing loss and the latest research and technologies that can help to enhance your Hearing Conservation Program – and your bottom line.

Learn more about how you can prevent noise-induced hearing loss and become part of the next generation of Hearing Conservation.

Topics at HearForever™: Best Practices in Hearing Conservation include:

- Basics of Noise-Induced Hearing Loss
- Implementing an OSHA Hearing Conservation Program
- Impending Changes to the Noise Reduction Rating (NRR) and Your Program
- Selection and Fitting of Hearing Protectors
- Employee Motivation and Training Techniques/Resources
- New Hearing Conservation Innovations and Technologies
